## tesa<sup>®</sup> Marking tapes – Because people need direction

As one of the leading producers of self adhesive tapes tesa offers a wide range of tapes for various applications. As a part of the wide range an assortment of marking tapes is available to support you during various jobs.

In every part of our life we need direction. You can find signs in many public areas like airports, railway stations or shopping malls. In warehouses, production halls or on athletic fields markings for guidance are necessary for different reasons as well.

tesa<sup>®</sup> marking tapes offering tailor-made solutions for different demands.

For permanent marking applications UV & very mechanical stressresistant tapes are necessary. Different colours make the guiding easier to understand. Special places like fire extinguishers or first aid medical stations require an eye-catching marking.

Different laws, guidelines and certifications like ISO also require markings in several areas.

This folder will guide you during the selection process of the right solution for you.

## tesa<sup>®</sup> 4169 permanent Marking tape

If you are looking for a permanent marking solution you first have to decide whether to do it with tapes, paints or thermoplastic elements. All in all tapes are offering a very flexible, easily removable, easy to apply and competitive solution.

Implementing a permanent floor marking with tesa® floor marking tapes provides many advantages. You don't have to prepare the floor and you don't have to barricade the marked areas for drying time. If you have to change the marking you can do it easily. Remove the tape and apply a new one in the changed layout.

tesa<sup>®</sup> 4169 marking tapes are UV resistant and due to the thick backing they are able to withstand high mechanical stress. They are available in 6 colours in dependence with the security guidelines. Additional we are offering the tesa® 4169 PV8 in the hazard warning versions red/white and black/ yellow. Furthermore the tesa<sup>®</sup> 4169 PV8 offers a silicon release coating for a low unwind force.

-

The new packaging of tesa® 4169 prominently shows the features you can count on and guide your decision as well.

End tab allows a convenient start and after using the tape once you will find the start of the roll easily due to the first usage.

tesa® 4169 in 100 m : 100 mm for efficient marking of large areas

The tesa<sup>®</sup> 4169 is available in two dimen- motive plants, in the aviation industry or provides a good visibility and a comfortable applicability by hand. Especially for large areas, as you can find them in auto-

sions. The 33 m : 50 mm rolls are easy to other huge industrial complexes, tesa is handle manually. This common dimension offering the tesa<sup>®</sup> 4169 in 100 m : 100 mm. Together with the tesa<sup>®</sup> floor marking tape dispenser tesa is offering a unique solution.

## tesa<sup>®</sup> 60760 Marking tape

For temporary marking during renovation, building and construction work or if you don't know the final layout of your production, tesa® 60760 is offering the right solution for you.

Even for the marking of static elements, door frames or other non stressed applications tesa<sup>®</sup> 60760 provides the requested properties.

The robust backing and well balanced adhesive mass offer an economic solution. tesa® 60760 is available in 5 different colours. Striped red/white and black/yellow hazard warning versions are available as well. The dimension of all versions is 33 m : 50 mm.

For easier markings like gas pipes, barriers or low entries the tesa® 60760 provides the right solution.

## Why do you need a marking on floors and other areas?

Different laws, guidelines and certifications like ISO requiring markings in several areas.

With guideline 92/58/EWG we became a common European standard. Adapted in local laws, you have the clear advise to mark production areas due to safety reasons. Depending on the conditions, floor markings are an essential part of it.

#### Target Market – ISO Audited Firms

#### Some requirements and benefits of ISO standards

- Improve work processes, procedures and effectiveness
- Give credibility to the business and production capability
- Increase occupational health and safety standards of the workers

#### How our tapes help?

- Provide clear segmentation of work processes and products
- Provide lane delineation to give a cleanly and neatly arrangement of the overall production plant layout
- Identify potential hazardous pinch points in production

But, should only the necessity to have a marking guide you?

With clear markings you are increasing the safety level in productions and warehouses. Clear markings are supporting an efficient material flow and helping you during the optimization of your production.
